DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 13-14, 21, and 25-26 are rejected under 35 U.S.C. § 102(b) as being anticipated by Ohta et al. (U.S.5,818,482)

Re claims 1, 14, 21, with reference to figs.18, 19, 27, and 29, Ohta discloses the instant claimed inkjet head having a laminated structure of a plurality of plates including at least one cavity plate (40) and at least one manifold plate (13), comprising:
a plurality of ink pressure chambers (17) formed in said at least one cavity plate,
each of said ink pressure chambers selectively pressurizing ink supplied thereto to eject the ink from said inkjet head;

a manifold channel (42) formed in said at least one manifold plate, the manifold channel being in fluid communication with each of said ink pressure chambers to distribute the ink thereamong; and

a land block (46a; fig.23) provided in said manifold channel, said land block being encircled with the ink.

Re claims 13, 21, a plurality of ink supply channels (44a, 44b; fig.18) connected to said manifold channel to supply ink from external ink supply (19) to said manifold channel; and

Re claims 25, 26, wherein the manifold plate comprises a plurality of independent manifold channels (see fig.29).

Allowable Subject Matter

3. Claims 3, 5-10, 15-20 are allowed over the prior art of record.
4. Claims 2, 4, 11-12, 22-24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Amendment

Applicant's Amendment filed September 9, 2005 has been entered and carefully considered. Claims 25-26 have been added.

Applicants' arguments with respect to new issues that an inkjet head having a laminated structure of a plurality of plates including at least one cavity plate have been considered as noted in the above new grounds of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
